—NORTH AMERICA 2026—

Crusoe Managed Post-Training Platform

Yiwei Song, Senior Director, AI Model Lifecycle
Crusoe.ai

Who we are ?

Crusoe is a vertically-integrated AI infrastructure company.

02

AI Cloud Platform

Infrastructure and Platform as a service

04

Environmentally Aligned Power Sources

Wind, solar, flaring, hydropower,
geothermal, carbon capture

01

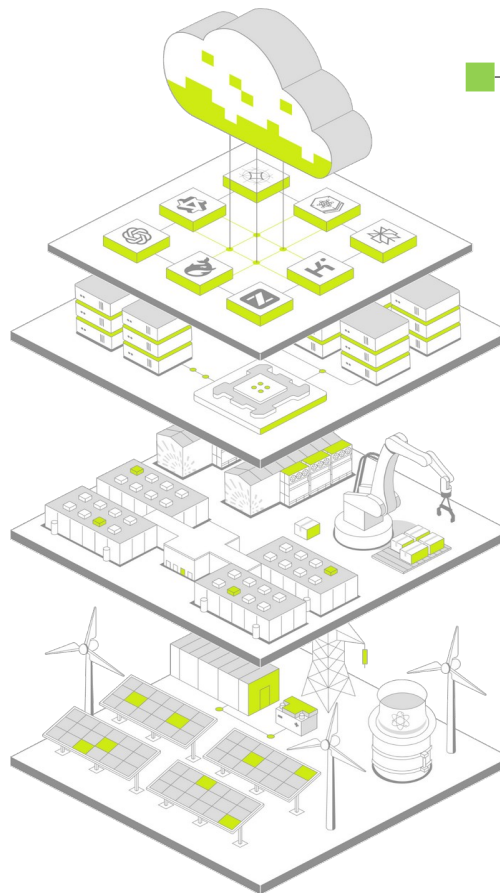

Managed AI

AI as a service

03

AI Data Center Infrastructure

Crusoe's modular, scalable build

Crusoe Cloud

Crusoe Developer Tools

CLI

Terraform Provider

MCP Server

APIs

Models

...

AI Platform

Crusoe Cloud Console with Crusoe Command Center (Unified operations platform)

AI IaaS (Infrastructure as a Service)

AI Compute

Bare Metal

GPUs

NVIDIA

AMD

High-Performance Storage

Block Storage

File Storage

Object Storage

Accelerated Networking

VPC

NVIDIA InfiniBand

Load Balancers

AI PaaS (Platform as a Service)

Crusoe Managed Kubernetes

AutoClusters

Cluster Autoscaler

Active Health Checks

NVIDIA GPU & Network Operator

Crusoe Managed Slurm

Container Registry

Standard mode

Pull-Through Cache mode

Managed AI

Crusoe Intelligence Foundry

AIaaS (AI as a Service)

Crusoe Serverless Fine-Tuning

LoRA

Dataset store

Private model store

Crusoe Managed Inference

Tailored Deployment

Self-Serve Deployment

Serverless Inference

Proprietary Inference Engine
powered by **MemoryAlloy**

Security + Compliance + Governance

Why We Build This

Proprietary models will push the frontier. Customized models will run the everyday.

Frontier tasks
→ Proprietary models

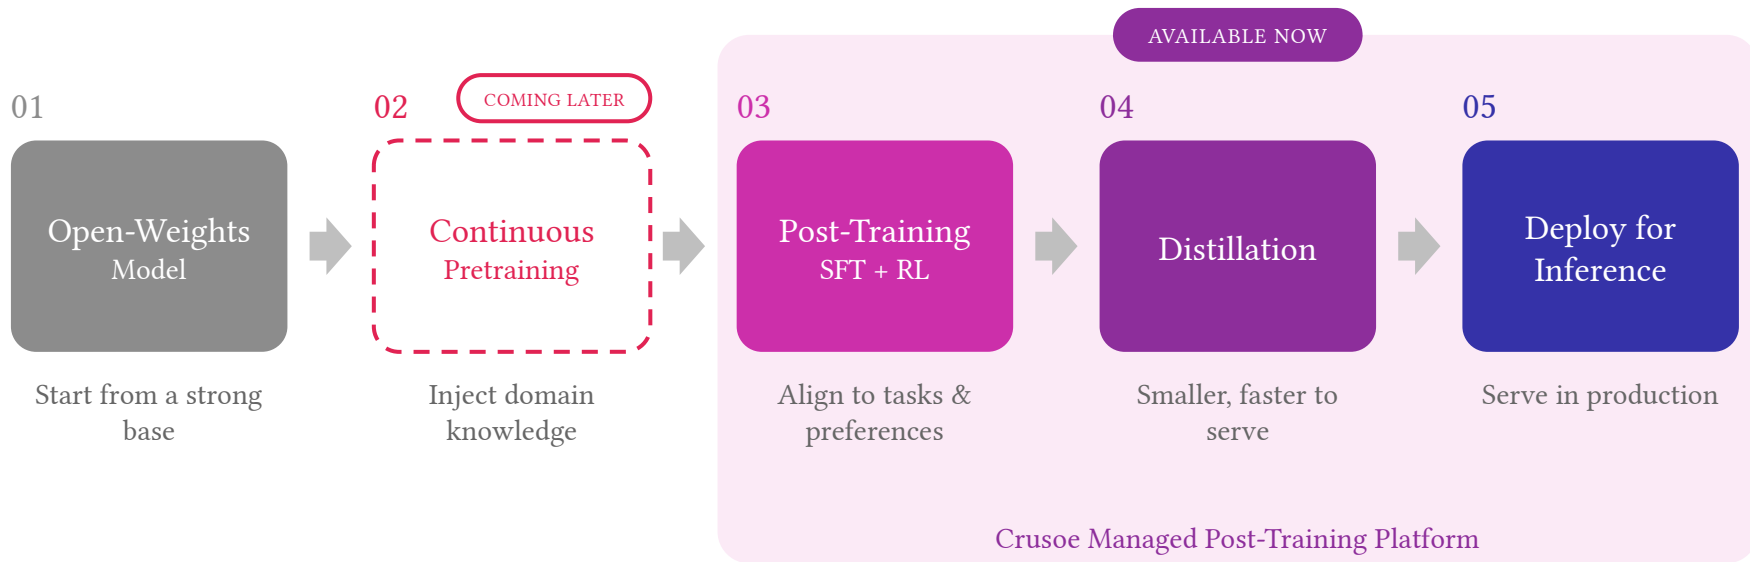

Novel, open-ended problems that
need the most general capability

The majority of daily tasks
Existing workflows, Evaluable outcomes
→ Customized models

10×
lower cost

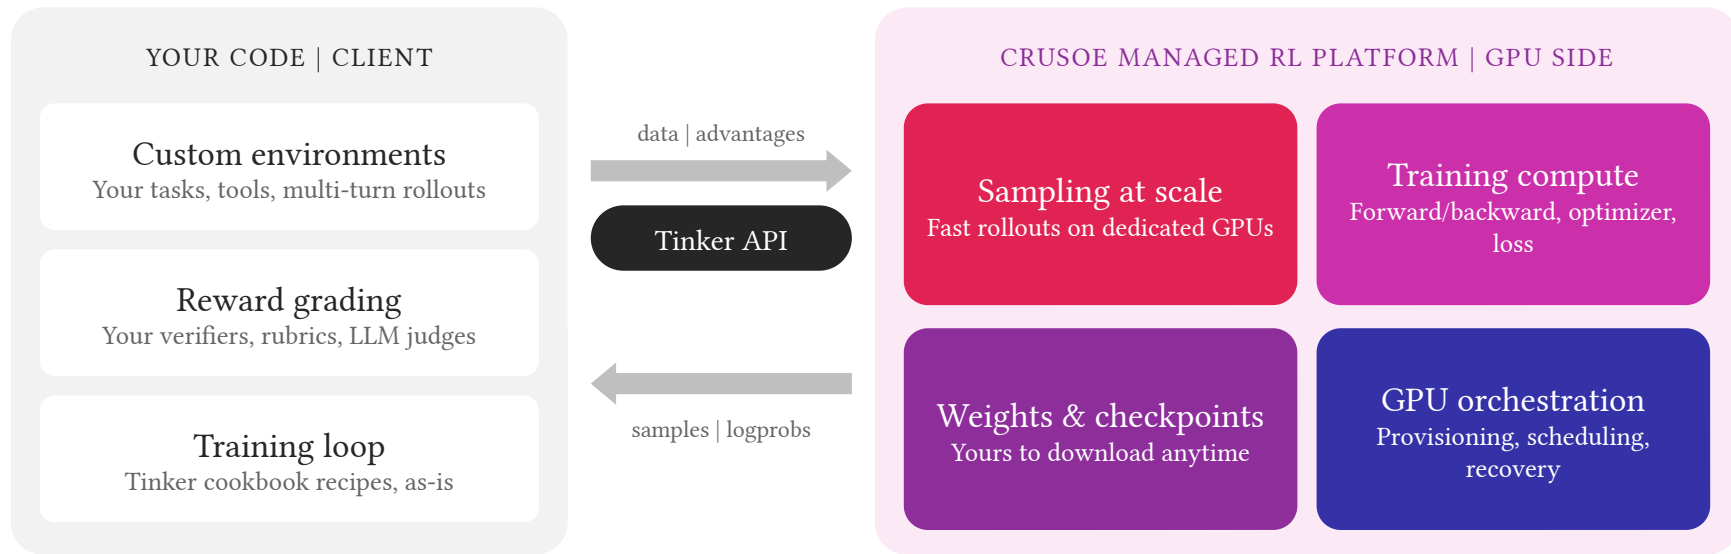

Higher
accuracy on your own tasks

Customized LLM Lifecycle

Crusoe Managed RL

A Tinker API-compatible post-training platform. You decide what to learn; we run the GPUs.

Thank You
