Fabric PoC - These 5 things must not be forgotten!

01

Scope

A Proof of Concept (PoC) demonstrates feasibility, while a Minimum Viable Product (MVP) is a first version of a product for early user feedback.

02

Cloud Governance

Fabric = SaaS but…
It‘s a Azure ressource

Public Endpoints are welcome!

03

Data Governance

Data Architecture
&
Workspace Design

04

Right tool for the workload

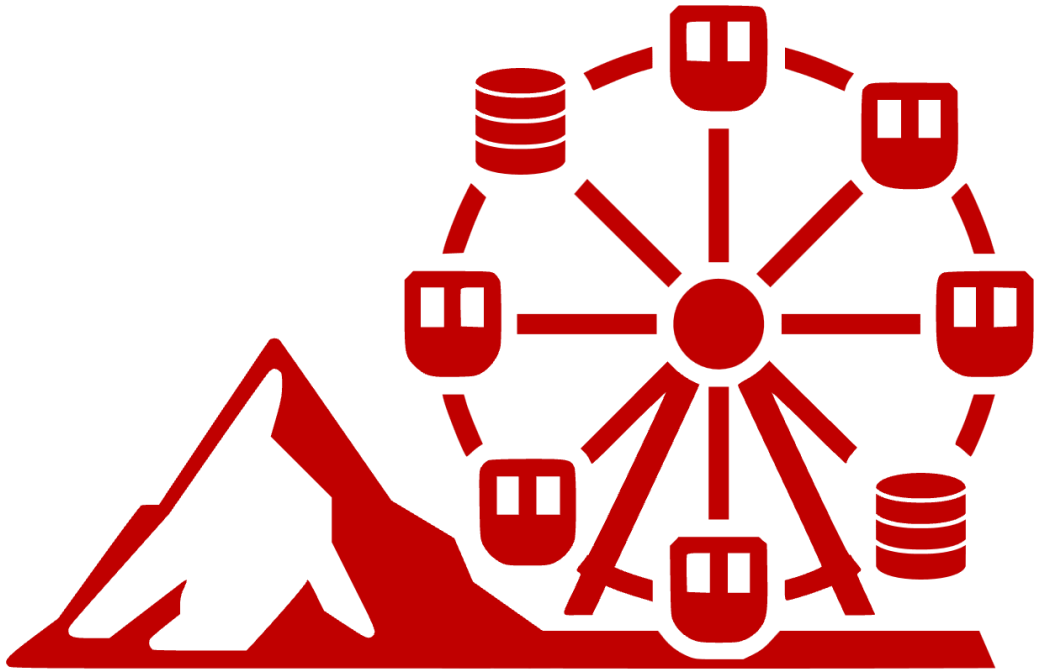

Lakehouse / Warehouse / Eventhouse
Dataflows Gen2 / Data Pipelines /
Evenstreams / Notebooks

05

Know the limits

Even if the right tools have been selected, there may still be limitations that do not work in this environment!

THANK YOU!
