State of the Community

Tosha Ellison

VP, Research and Communications, FINOS

FINOS Fintech Open Source Foundation

THE LINUX FOUNDATION

TL;DR

1

FINOS is moving faster than ever

Record members, contributors, sponsors, projects and funding

2

The time to value is shrinking

From years to months — joining, contributing, graduating, ROI

3

We are called to address industry-wide C-suite needs

AI governance · Supply chain security · Open RegTech

1

FINOS is moving faster than ever.

Every metric we track is at a record.

2026 BY THE NUMBERS

114
member organizations

27
new or upgraded memberships in the last 12 month

9
G-SIBs on the Governing Board

37
unique sponsors across three OSFFs this year — a record

1000+
code contributors across the finos, finos-labs and finos-hack GitHub orgs

10
projects moved up the lifecycle

$1M+
in supplemental funding on top of dues — AI Fund and OSERA

7,000+
training enrollments

A COMMUNITY THAT SHOWS UP

2,500+

in-person registrations — 3x OSFFs, CDM events and 20+ workshops & trainings

7,000+

project-meeting attendances and online events in 2026

53

CTOs, CIOs and AI leaders at the London summit

A RECORD 27 MEMBERSHIP NEW OR UPGRADED IN 12 MONTHS

PLATINUM

- TD
- UPGRADE — BofA SECURITIES
- UPGRADE — Fidelity INVESTMENTS

GOLD

- BrightQuery — The Factual AI Company™
- ORACLE
- Chainguard
- mariaDB

SILVER

- Summit58
- Moderne — The agent tools company
- Octopus Deploy
- CRAFTY PENGUINS
- iTmethods
- develocity
- docker
- MIRANTIS
- herodevs
- SMBC 三井住友カード
- Go.AI

ASSOCIATE

- Yeshiva University
- ACTUS
- Newton
- ENTERPRISE ETHEREUM ALLIANCE
- WESTERN NEW ENGLAND UNIVERSITY WNE
- typelevel

THE INDUSTRY IS BETTING ON OPEN SOURCE

114 members

PLATINUM

BofA SECURITIES · citi (OSERA) · Fidelity · Goldman Sachs (OSERA) · J.P.Morgan · LME An HKEX Company · Microsoft GitHub · Morgan Stanley (AI FUND OSERA) · NVIDIA · RBC (AI FUND OSERA) · TD (OSERA) · UBS

2

The time to value is shrinking.

From years to months — joining, contributing, graduating and realizing ROI.

FROM YEARS TO MONTHS, AT EVERY STEP

JOIN → ROI	TD: Platinum in February — Fluxnova in production and OSERA Premier by autumn	**< 12 months**
CONTRIBUTE → GRADUATE	Historically ~3 years to Graduated. Two projects did it this year — tomorrow, 9:18	**12–14 months**
INTENT → PRODUCTION	OSERA: intent in June — open standard, 50+ projects patched by October	**1 quarter**
IDEA → INDUSTRY STANDARD	AI Governance Framework: from a SIG to a funded Governance-as-Code pipeline	**< 2 years**

3

We are called to address industry-wide C-suite needs.

AI governance · Open source supply chain security · Regulatory digitization in the era of agents

THREE STRATEGIC TRENDS OF COLLABORATION

AI Governance (As Code)

- 52% say security & privacy is the #1 barrier to agents
- AI Fund · Governance-as-Code · The Playbook
- Core theme of today!

Open Source Supply Chain Resiliency

- Discovery went from weeks to minutes
- OSERA + Akrites: the Linux Foundation response
- Leaders on stage tomorrow!

Regulatory Digitization

- 47% rank standards as the top value of collaboration
- CDM · Digital Regulatory Reporting · Open RegTech
- Don't miss Rep. Bill Foster & Michael Hsu on stage tomorrow

In other words, we are delivering to our mission:

FINOS unites the financial services industry to build open technologies and standards that ***accelerate innovation****,* ***improve resilience****,* ***enhance profitability***

THIS IS NOT JUST FINOS

The whole industry is moving the same way — and for the sixth year, the data proves it.

> *“As the industry moved from consuming open source to building it, 2026 saw the fastest growth ever. Financial services proved Linux could run the most demanding systems. FINOS demonstrated fierce competitors could build something valuable together.”*
>
> **Jim Zemlin**
> CEO, The Linux Foundation — foreword to the 2026 State of Open Source in Financial Services

Please welcome Hilary Carter, SVP Research, The Linux Foundation, and Tosha Ellison, VP Research & Communications, FINOS
